3 DAYS OF DESIGN EDITION

FROM BELGIUM WITH LOVE
RE-VOLT IN COPENHAGEN

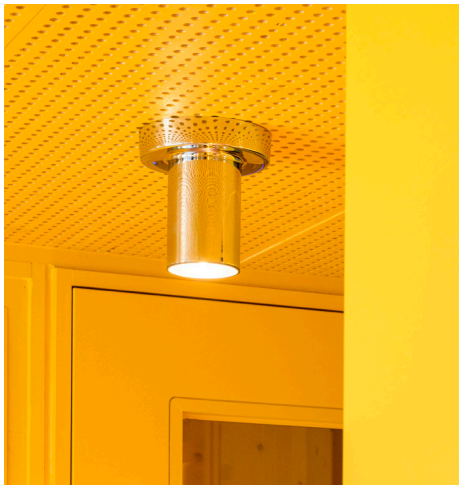

Mr. T Mr. T brings back some of the good vibes of the analog era, inspired by the iconic R80 glass reflector lamp that found its place in countless lighting fixtures of the past.

Today, Mr. T is available with an R80 LED lamp, while upcoming versions will also feature a range of integrated LED module options. Thanks to the use of the same glass lens, the visual identity of Mr. T remains exactly as intended: timeless, recognizable and unchanged.

Aluminium / Steel gloss coated or Chrome
E27 / 5.9W R80 LED / 345Lm / 2700K / CRI 90 / IP20

White	RAL 9010
Coral Red	RAL 3016
Yellow	RAL 1006

Power cord & plug version is delivered with a power cord installed but it is also available for connection directly to an electricity point.

Marvin is our kind of tribute to Marvin Gaye who wrote 'Sexual Healing' while he was living in Ostend, Belgium.

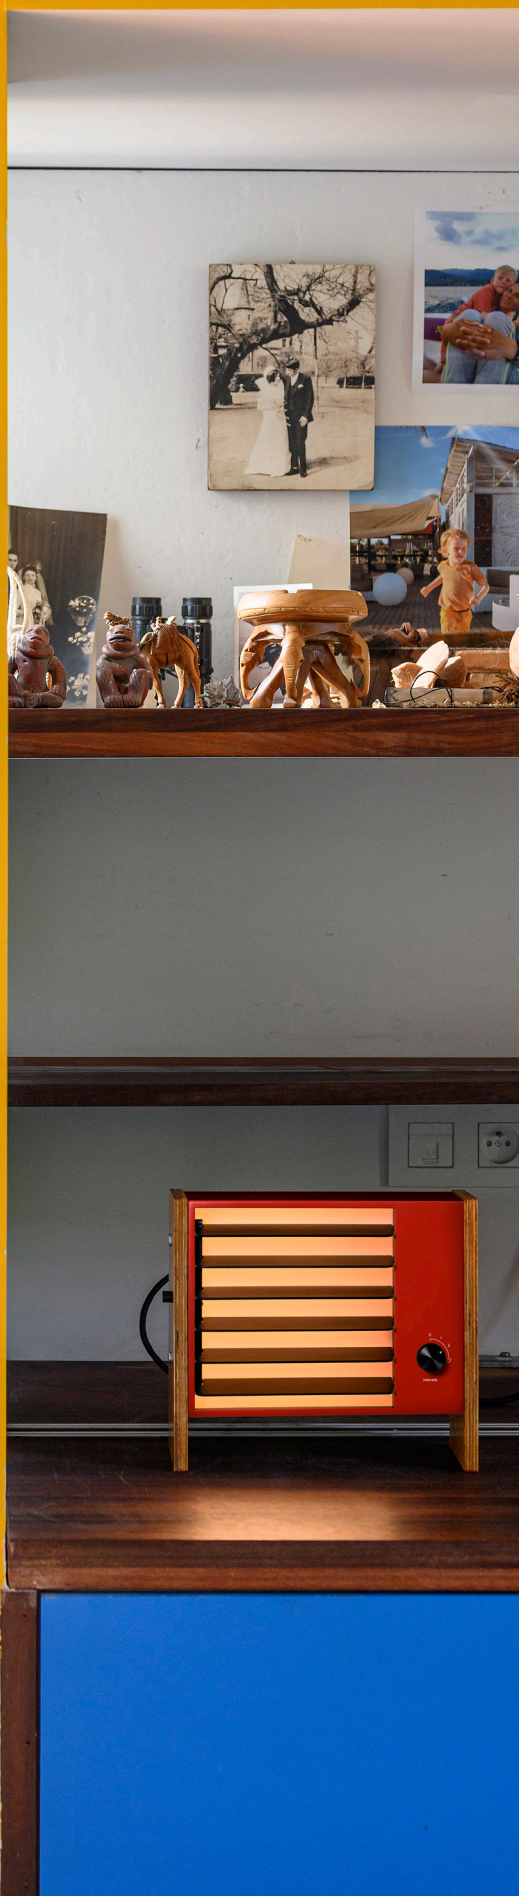

Turn the intensity switch of the Marvin to its max and it will definitely create the mood for some sexual healing if needed...

Steel powder coated / Pine multiplex
Integrated USB charger
Replaceable LED plate / 12W / 562Lm max.
/ 2700K + red / CRI 90 / IP20

COLORS

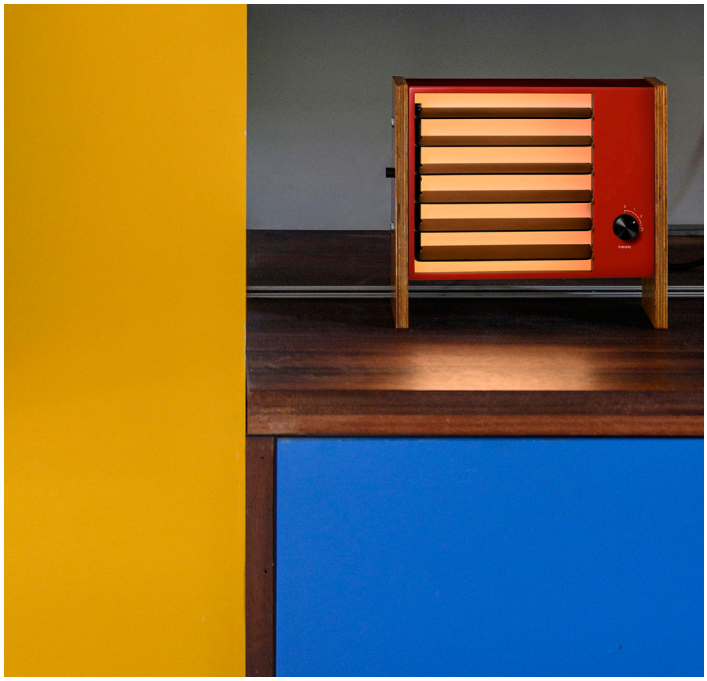

Black	RAL 9017
White	RAL 9010
Coral Red	RAL 3016
Yellow	RAL 1006

Marvin's Brother is the standing version of the Marvin bedside lamp. It requires no further installation. It features a usb outlet to charge your devices, adjustable louvres and the Marvin intensity switch.

The Officer is our timeless , handcrafted lighting fixture designed to last for generations. Its new two-part bracket allows for easy desk clamping or wall mounting, offering maximum flexibility.

Available in two arm lengths, with an adjustable-height version or a fixed model on a base. Offered in Blue, Yellow, Coral Red, Black, and White.

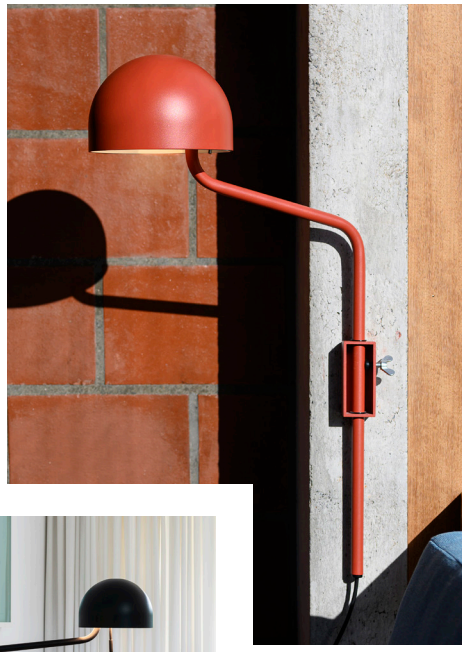

Built to withstand daily use and age gracefully, the Officer is a durable companion for workspaces, homes, and public interiors alike.

COLORS

Black	RAL 9017
White	RAL 9010
Coral Red	RAL 3016
Yellow	RAL 1006
Blue	RAL 5012

NEW PRODUCTS

Make-Up She wasn't made to blend in.

Make-Up is the first recessed spotlight in the RE-VOLT collection. Most recessed spotlights are designed to blend into the ceiling. Make-Up isn't. With its bold visible ring, Make-Up embraces attention rather than avoiding it.

What is usually hidden becomes a deliberate design element, adding a subtle yet distinctive accent to both interior spaces and architectural concepts. Make-Up is a statement piece that celebrates the beauty of being seen.

Make-Up will be available with a variety of LED module options, offering flexibility for a wide range of lighting applications.

Cool never goes out of style. Travolta

Personality goes a long way. Available in both surface-mounted and track-mounted versions, it reinterprets the iconic slightly oversized spotlights of the 1970s for contemporary interiors.

An interchangeable front cover allows users to choose between a glass lens or an anti-glare louvre, balancing visual character with optimal lighting comfort.

“That’s a pretty good spotlight

Going out. Light Machine №2

Our award winning Light Machine, inspired by a mix of film set lights, army jerrycans and mechanical machine details will now also take it's machinery to the outdoors.

With its new weatherproof construction, the Light Machine Nº2 brings its distinctive character wherever light is needed — from a subtle uplight in your living room to warm ambient lighting on a terrace or during long summer evenings in the garden.

Designed to move effortlessly between indoors and outdoors, it delivers atmosphere, functionality, and iconic design in every setting.

INFO@RE-VOLT.BE

We treasure cycles more than lines. Poetry more than prose. Authenticity more than pose.

RE VOLT.®

We are a brand, a philosophy, but most of all a bunch of creatives and craftsmen.

We aim to develop lighting, firstly, that is sustainable on the one hand, and beautifully designed on the other. Nice pieces of interior design in other words, which can be passed on generation after generation.

Not only because of their quality, but because they've been shrouded in timeless design. And because we believe that only that which doesn't change is ultimately interesting in a world where change, at an ever-increasing pace, is becoming the new constant.
