NEW COLLECTION 2026

RE VOLT.®

In a world of disposable trends, **Re-Volt creates soulful lighting** designed to last generations.

We are a blend of craftsmen & creatives passionate about light drawing on many years of experience.

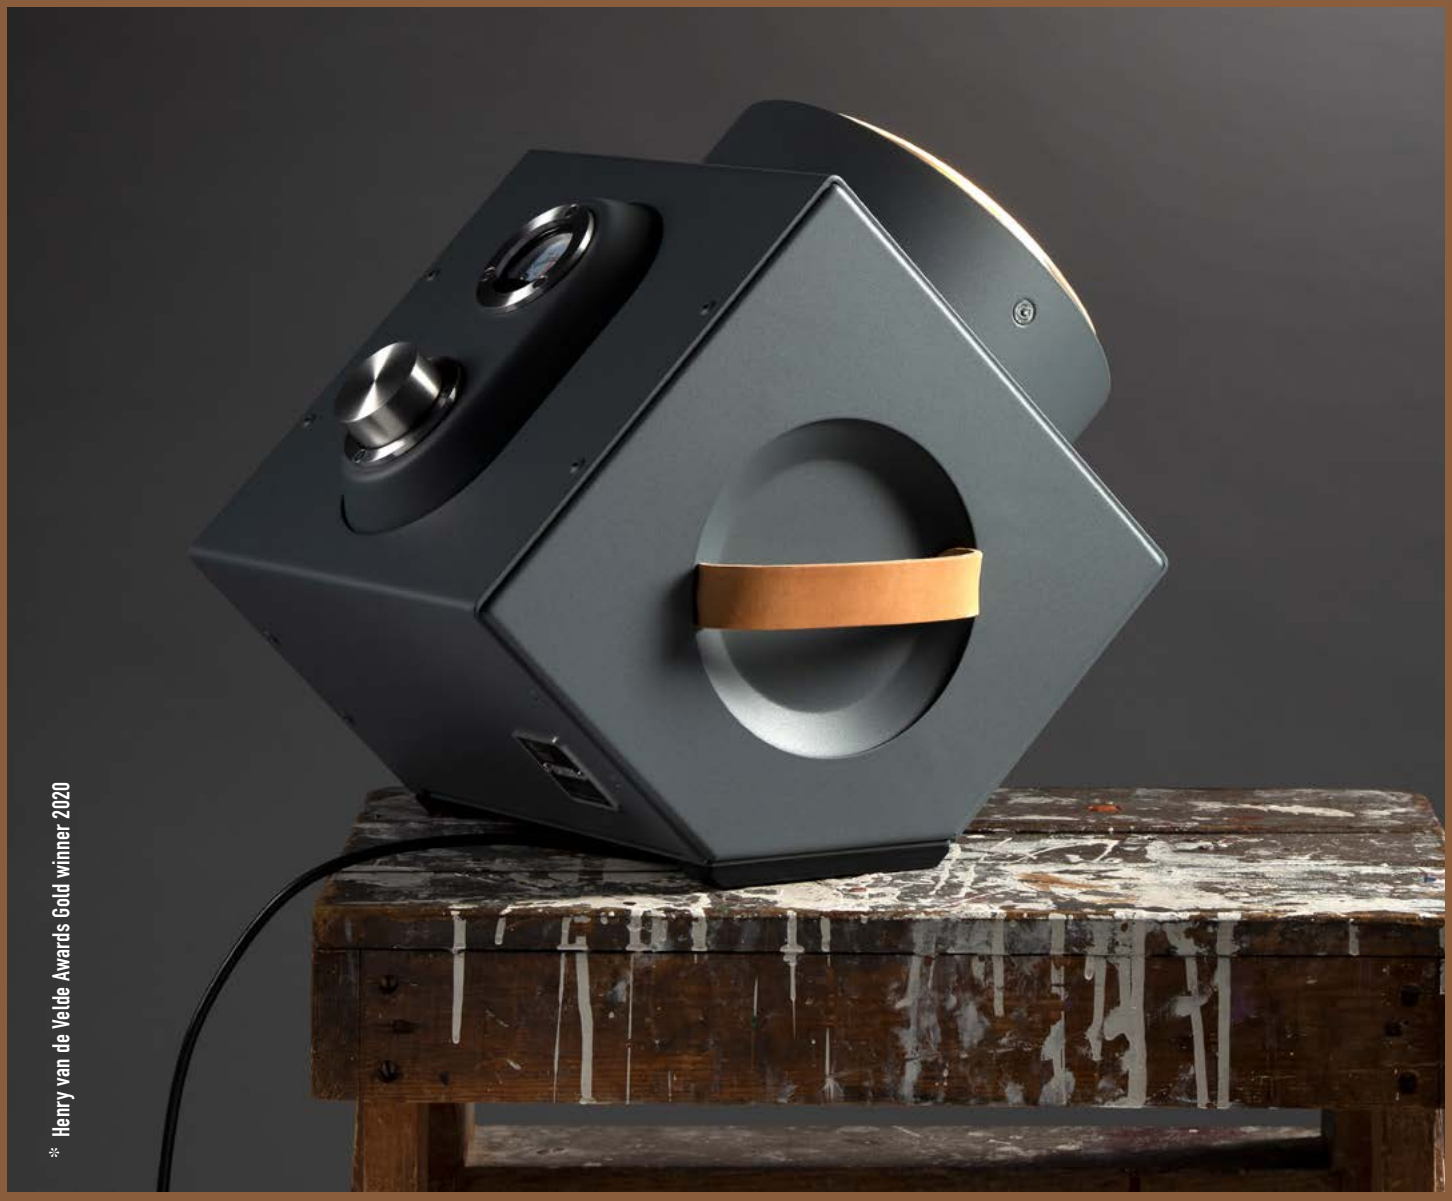

In doing so, we favor the kind of slow that lasts & expands time over the fast that fades. We assume authenticity is the purest form of beauty, and truth the long term currency of our day.

In that spirit we create true, authentic objects that last and brighten up (y)our world.

A timeless aesthetic.
Customization & color variety.
Hand-assembled.
Award-winning *

EASY REPAIR
LONGER LIFECYCLE

Our products are built to be repaired, not replaced. — We believe that what doesn't change, utlimately becomes the most interesting.

Our new collection of products was unveiled in June 2026 during during 3 Days of Design in Copenhagen. It features **Make-Up**, a recessed spotlight made to stand out rather than blend in. It includes the **Travolta**, full of charisma, re-interpreting the classic 1970s spotlight for contemporary interiors. And **The Light Machine Nº2**, which adds weatherproof construction, making the fixture even more versatile.

Make-Up

She wasn't made to blend in.

NEW
UNVEILED AT 3 DAYS OF DESIGN 2026 - NEW COLLECTION 2026 -

Make-Up is the first recessed spotlight in the RE-VOLT collection.

Most recessed spotlights are designed to blend into the ceiling. Make-Up isn't. With its bold visible ring, Make-Up embraces attention rather than avoiding it.

What is usually hidden becomes a deliberate design element, adding a subtle yet distinctive accent to both interior spaces and architectural concepts. Make-Up is a statement piece that celebrates the beauty of being seen.

Make-Up will be available with a variety of LED module options, offering flexibility for a wide range of lighting applications.

Cool never goes out of style
Travolta

3 DAYS OF DESIGN 2026 - NEW COLLECTION 2026 - UNVEILED AT
NEW

Personality goes a long way.

Available in both surface-mounted and track-mounted versions, it reinterprets the iconic slightly oversized spotlights of the 1970s for contemporary interiors.

An interchangeable front cover allows users to choose between a glass lens or an anti-glare louvre, balancing visual character with optimal lighting comfort.

Light Machine Nº2

UNVEILED AT 3 DAYS OF DESIGN 2026 - NEW COLLECTION 2026 -
NEW

Our award winning Light Machine, inspired by a mix of film set lights, army jerrycans and mechanical machine details will now also take it's machinery to the outdoors.

With its new weatherproof construction, the Light Machine Nº2 brings its distinctive character wherever light is needed — from a subtle uplight in your living room to warm ambient lighting on a terrace or during long summer evenings in the garden.

Designed to move effortlessly between indoors and outdoors, it delivers atmosphere, functionality, and iconic design in every setting.

Mr. T
Analog vibes.

Mr. T Mr. T brings back some of the good vibes of the analog era.

It's inspired by the iconic R80 glass reflector lamp that found its place in countless lighting fixtures of the past.

Today, Mr. T is available with an R80 LED lamp, while upcoming versions will also feature a range of integrated LED module options. Thanks to the use of the same glass lens, the visual identity of Mr. T remains exactly as intended: timeless, recognizable and unchanged.

MATERIAL
Aluminium / Steel gloss coated or Chrome

LAMP
E27 / 5.9W R80 LED / 345Lm / 2700K / CRI 90 / IP20

COLORS

Black	RAL 9017
White	RAL 9010
Coral Red	RAL 3016
Yellow	RAL 1006

Marvin
Our sensual bedside lamp.

Marvin is our sensual bedside lamp.

It has adjustable louvres and an intensity switch.

Marvin is our kind of tribute to Marvin Gaye who wrote 'Sexual Healing' while he was living in Ostend, Belgium.

Turn the intensity switch of the Marvin to its max and it will definitely create the mood for some sexual healing if needed...

This fixture has a usb outlet and is available with and without power cord.

MATERIAL
Steel powder coated
Integrated USB charger

LAMP
Replaceable LED plate / 12W / 562Lm max. / 2700K + red / CRI 90 / IP20

COLORS

Black	RAL 9017
White	RAL 9010
Coral Red	RAL 3016
Yellow	RAL 1006

Power cord & plug version is delivered with a power cord installed but it is also available for connection directly to an electricity point.

PRESS ENQUIRIES:
SOFIE@RE-VOLT.BE

We treasure cycles more than lines. Poetry more than prose. Authenticity more than pose.

RE VOLT. ®

We are a brand, a philosophy, but most of all a bunch of creatives and craftsmen.

We aim to develop lighting, firstly, that is sustainable on the one hand, and beautifully designed on the other. Nice pieces of interior design in other words, which can be passed on generation after generation.

Not only because of their quality, but because they've been shrouded in timeless design. And because we believe that only that which doesn't change is ultimately interesting in a world where change, at an ever-increasing pace, is becoming the new constant.
